INSTRUCTIONS: Click on the 'Click-to-Publish' links above to rename and/or publish your audio message. Click on the 'Delete' link to move your message into the archives.

NOTE: When you record over a clip, you will need to close ALL your browser windows and open a new browser window to hear your new clip. This is normal. This happens because your computer automatically saves a copy of the audio-clip so it can be replayed often without additional downloads.

NOTE ON CLIP STATISTICS: Monthly statistics are reset on your billing day. Total statistics are cumulative from November 1st, 2005. You will be billed \$3 per gigabyte (rounded) for any total monthly bandwidth that exceeds 3 gigabytes. So, if your Total Monthly Bandwidth is under 3GB on the day you are billed, you won't be charged anything for bandwidth usage. Also, if your monthly total exceeds 100GB, we will only charge \$2 per gigabyte over the initial 100.
